

Common Heart Valve Conditions: Understanding Symptoms and Treatment Options

Monday, October 28, 2024 | 6 p.m.

Location: Zoom Meeting

A person with heart valve disease might not experience symptoms for years, so it's important to understand them when they appear. **DR. DAVID DRUCKER**, interventional cardiologist from Capital Health Cardiology Specialists and medical director of Capital Health's Structural Heart Program, will discuss the symptoms, evaluations, and care for common heart valve problems, including the latest minimally invasive treatment options for some of these conditions.

This event will be taking place virtually using Zoom. Register online at capitalhealth.org/events and be sure to include your email address. Zoom meeting details will be provided via email 2–3 days before the program date. Registration ends 24 hours before the program date.
