

Lung Cancer Awareness: New Technology to Streamline Diagnosis

Monday, November 4, 2024 | 6 p.m.

Location: Zoom Meeting

Lung cancer symptoms often go undetected until its later stages, which is why advances in screening options are crucial to overcoming this disease. **DR. DIANA KOLMAN**, director of Interventional Pulmonology at Capital Health, will highlight the latest robotic technology that is increasing the precision and efficiency of lung biopsies. This allows for earlier and more accurate detection of cancerous cells and better patient outcomes in the fight against lung cancer.

This event will be taking place virtually using Zoom. Register online at capitalhealth.org/events and be sure to include your email address. Zoom meeting details will be provided via email 2–3 days before the program date. Registration ends 24 hours before the program date.
