UNMASKING AGEISM: AN INVITATION TO REIMAGINE AGING TOGETHER

Join CMAP's Inaugural Symposium on Ageism - June 12, 2025

Dear Friends,

What comes to mind when you think about growing older?

Too often, our society answers this question with a mix of fear, pity, and limitation. Ageism – the stereotypes, prejudice, and discrimination directed at people based on their age – seeps into our language, our healthcare, our workplaces, and even our self-perception. And while aging is something every single one of us will experience, ageism isolates us, divides generations, and undermines the dignity and potential of growing older.

At the Center for Modern Aging Princeton (CMAP), we believe it's time to change that.

That's why we are proud to host our **Inaugural Symposium on Ageism** on **Thursday, June 12, 2025** – a full-day event designed to confront ageism head-on and inspire a cultural shift in how we view and experience aging. The theme, "Living Longer Lives: Overcoming Our Fears of Growing Old," invites each of us to reexamine the narratives we carry about aging and reclaim the truth: that longer lives can be lives of purpose, connection, wisdom, resilience, and joy. To learn more and register, visit: <https://cmaprinceton.org/symposium-on-ageism/>

We are honored to welcome two national thought leaders as our keynote speakers:

- **Paula Span**, award-winning journalist and columnist for "The New York Times" column "The New Old Age," who brings a compassionate and deeply informed perspective on aging in America.
- **Dr. Tracey Gendron**, professor and chair of the Department of Gerontology at Virginia Commonwealth University, and author of "Ageism Unmasked: Exploring Age Bias and How to End It," a groundbreaking book that challenges the ageist assumptions embedded in our culture – and in ourselves.

COST SHOULD NEVER BE A BARRIER TO LEARNING!

Senior Scholarships are available for all our programs.

To request a scholarship, go [HERE](#).

The day will also include interactive workshops designed to spark conversation and inspire action:

- *Age-Inclusivity Matters: Practical Tips for Professionals Engaging with Older Adults*
- *Resilient Aging in the LGBTQ+ Community: Maintaining Voice and Autonomy*
- *Oh, at Your Age—'Get Over It, Honey!': Ageism and Its Impact on Healthcare and Healthcare Delivery*

Whether you are an older adult, a caregiver, a health professional, a student, or someone interested in building a more inclusive future for people of all ages – this symposium is for you. Ageism affects all of us, whether we realize it or not. And the work of unmasking it begins in community – when we listen, learn, and choose to see aging as a gift, not a burden.

At CMAP, our mission is to help older adults thrive – and that means creating a world where older adults are respected, valued, and empowered. This symposium is one more step in that journey.

We invite you to join us on June 12. Let's reimagine aging – together.

Google's Uncluttered "Web" Search Option

Are you tired of Google's ads and other flotsam and jetsam clogging up your search results? Read on.

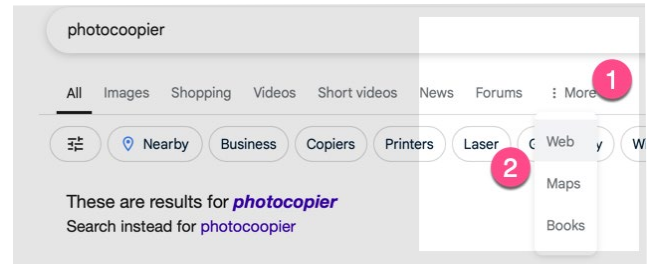

Hidden Trackpad

A long time ago, in a galaxy far, far away, Google's search results comprised a simple list of websites you could select from to find what you were looking for. It was uncanny how Google seemed to know what you had in mind.

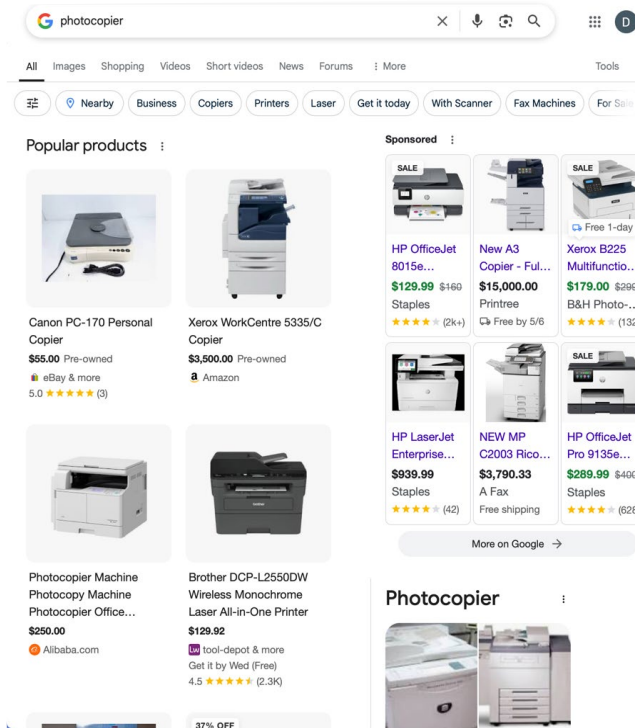

But, alas, that didn't last. Today, Google coughs up sponsored sales items, videos, maybe a TikTok or two, lists entitled "People Also Ask" and "Things to Know," and, finally, after lots of scrolling, the websites you wanted in the first place.

About a year ago, without much fanfare, Google added a "Web" search option that removes the chaff and returns us to yesteryear with a simple list of sites.

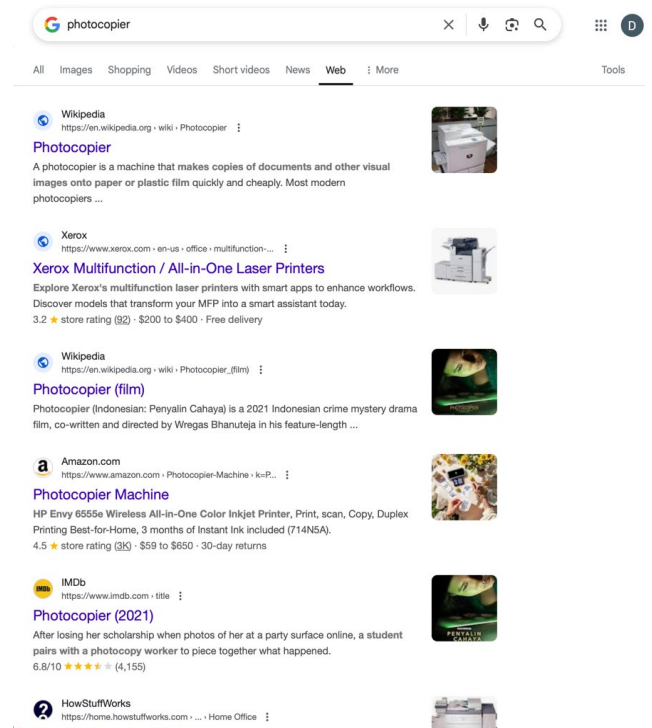

For example: You want information about "photocopiers." Google returns with a plethora of sponsored ads for photocopiers that you need to scroll through, as shown in the screenshot on the left below. But if you click "**More**" and then "**Web**" from among the options under the search bar, the ads go away, and you're left with links to websites about photocopiers, as shown on the right, a lot like the old days.

Select "More" and then "Web" to remove non-website entries.

Original search results with ads, etc..

Search results after selecting the "Web" option.

For help with Google or other tech "issues," go to our website, <https://cmaprinceton.org>, and scroll to the bottom, where you'll find the link to Tech Help.

Rides can be scheduled for any purpose between any points of origin and destination within the municipality, but medical appointments at Penn Medicine Princeton Health or at the Princeton Fitness and Wellness Centers (in both Princeton and Plainsboro) will receive priority. Rides to Penn Medicine are free for registered riders.

FROM THE DEVELOPMENT OFFICE

THANK YOU TO SILVER CENTURY FOUNDATION FOR SUPPORTING OUR INAUGURAL SYMPOSIUM ON AGEISM

Spotlight on Silver Century Foundation

The Silver Century Foundation is a charitable organization to promote a positive view of aging. The foundation is shining a light on entrenched societal ageism. We challenge stereotypes, encourage dialogue between generations, advocate planning for the second half of life and build awareness to educate and inspire everyone to live long, healthy, empowered lives. The Foundation envisions a society where:

- We no longer fear our own aging.
- Viable social and working roles for older adults exist and are valued.
- People are taught how to plan for the middle and later years, not just for the tasks of early adulthood.
- Different generations respect and enjoy each other.
- Growing older is seen not as an inevitable decline but as the fulfillment of a whole life.

Each month the foundation's website publishes book and movie reviews and informative blogs like this excerpt from Judith Graham's article: *Changing the way you think about aging can improve your life.*

"People's beliefs about aging have a profound impact on their health, influencing everything from their memory and sensory perceptions to how well they walk, how fully they recover from disabling illness and how long they live.

"When aging is seen as a negative experience (characterized by terms such as decrepit, incompetent, dependent and senile), individuals tend to experience more stress in later life and engage less often in healthy behaviors such as exercise. When views are positive (signaled by words such as wise, alert, accomplished and creative), people are more likely to be active and resilient and to have a stronger will to live."
