## Wellness Series Mission 2: Oral Healthcare for the Elderly

Please join us for an informative and practical wellness lecture with specialist Phyllis Donlon from Dental Home Services designed to highlight the critical connection between oral health and overall well-being in older adults. As individuals age, changes in medication use, chronic conditions, cognitive decline, and dexterity can significantly impact oral hygiene and dental care.

### Learning Objectives:

- Identify common oral health issues affecting older adults
- Understand the connection between oral health and systemic health
- Recognize when to refer to dental professionals
- Implement supportive techniques for residents with cognitive or physical limitations
